School of Computer Science and Engineering

INTERNSHIP REPORT

Content Editing Internship at GURUsys Learning

STUDENT NAME

Amrit Raj

ENROLLMENT / ROLL NO.

25SCS1003002558

PROGRAM & SEMESTER

B.Tech CSE — Semester 3

HOST ORGANIZATION

GURUsys Learning

Batch 2026–27 | Internship Duration: 15 May 2026 – 30 June 2026

1 Introduction

As part of the B.Tech CSE curriculum at IILM University, students undergo an industry internship to bridge academic learning with real-world professional practice.

In fulfilment of this requirement, I undertook an internship as a Content Editor at GURUsys Learning, an ed-tech organization operating under the philosophy “Read to Lead.”

15 MAY 2026 → 30 JUNE 2026

Internship Duration — Role: Content Editor

THIS REPORT COVERS

- Organization profile
- Problem statement & objectives
- Scope, tools & technologies
- Workflow & methodology
- Outcomes & learnings
- Certificate & offer proof

2 Organization Profile

GURUsys Learning

"Read to Lead"

An education-focused organization dedicated to creating high-quality learning content and resources for students and professionals.

Guided by its motto, GURUsys Learning works towards making learning material accurate, accessible, and engaging — offering structured internships in content development, editing, and quality assurance.

INDUSTRY

Ed-Tech / Learning Content

FOCUS AREA

Content Development & Editing

MY ROLE

Content Editor Intern

3 Problem Statement & Objectives

THE PROBLEM

Educational content produced at scale is prone to inconsistencies in grammar, tone, structure, and factual accuracy — reducing readability and diminishing organizational credibility.

PROJECT OBJECTIVES

- 1 Review and edit content for grammatical accuracy, clarity, and consistency
- 2 Ensure content adheres to the organization's tone, style, and formatting guidelines
- 3 Proofread and eliminate factual, typographical, and structural errors
- 4 Improve the overall readability and engagement value of content
- 5 Collaborate with writers and the content team to streamline the editing workflow

4 Scope of the Project

1

Editing of articles, blogs, and learning material created by the content team

2

Proofreading for grammar, punctuation, spelling, and sentence structure

3

Fact-checking and verification of information before publication

4

Formatting content in line with the organization's editorial guidelines

5

Providing constructive feedback to writers to improve future submissions

6

Basic optimization of content for readability and search visibility

5 Technologies & Tools Used

1

Google Docs / MS Word

Drafting, editing, and reviewing content

2

Grammarly

Grammar, spelling, and style checks

3

Plagiarism-Detection Tools

Verifying content originality

4

Google Sheets

Tracking content status and editorial workflow

5

Canva

Reviewing and suggesting visual/formatting elements

6

Content Management System

Uploading and formatting finalized content

6 Content Workflow Architecture

Although this internship was editorial rather than technical in nature, content production followed a defined multi-checkpoint workflow:

This workflow ensured every piece of content passed through multiple quality checkpoints before approval for publication, maintaining consistency and accuracy across all material.

7 Methodology

- | | | | |
|----|---|----|--|
| 01 | Received draft content from writers with the assigned topic and target audience | 05 | Ran content through plagiarism-detection and grammar-checking tools |
| 02 | Performed a first read-through to understand intent and flow | 06 | Reformatted content per the organization's style and publishing guidelines |
| 03 | Edited for grammar, punctuation, sentence structure, and tone | 07 | Shared feedback with writers and coordinated revisions where necessary |
| 04 | Verified facts, figures, and references used in the content | 08 | Submitted the final, polished version for approval and publishing |

An 8-step editorial workflow — from draft intake to final publishing — applied consistently to every piece of content handled during the internship.

8 Expected Outcomes

1

Improved practical skills in professional content editing and proofreading

2

A stronger understanding of editorial standards, tone, and style consistency

3

Hands-on experience with industry-standard editing and collaboration tools

4

Enhanced attention to detail, time management, and ability to work under deadlines

5

Exposure to real-world content workflows within an ed-tech organization

“Demonstrated excellent editing skills, creativity, attention to detail, and a strong willingness to learn.” — Certificate remark

9 Certificate of Completion

The Internship Completion Certificate issued by GURUsys Learning, certifying successful completion of the internship as a Content Editor from 15/05/2026 to 30/06/2026.

10 Offer Letter / Email Communication Proof

The offer letter communication received from GURUsys Learning via email, confirming the offer of the position of Content Editor.
