Of

## **A REPORT ON CONTENT EDITING INTERNSHIP AT GURUSYS LEARNING**

Submitted  
To

School of Computer Science and Engineering  
IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of  
**B.Tech CSE**

By

Roll Number of Student: 25SCS1003002558

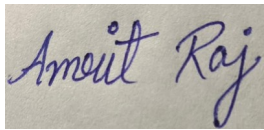

Name of Student: AMRIT RAJ

Batch: 2026-27

## **CANDIDATE'S DECLARATION**

I, AMRIT RAJ, do hereby declare that the internship report titled “Content Editing Internship at GURUsys Learning” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own and has not been submitted to any other institute for any degree/diploma requirement, and further I shall be solely responsible for any kind of copyright violation in this regard.

Roll No.: 25SCS1003002558

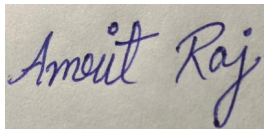

## **ACKNOWLEDGEMENT**

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during this work. I would like to sincerely thank Mr. Mukesh Kr. Sinha, Director, GURUsys Learning, for his mentorship and for giving me the opportunity to work as a Content Editor with the organization. I am also grateful to the entire GURUsys Learning team for their cooperation and support throughout the internship.

I would also like to thank my faculty mentors at the School of Computer Science and Engineering, IILM University, for their continuous guidance and encouragement throughout this internship.

Finally, I express my gratitude to my parents for their blessings.

### 3. INTERNSHIP COMPLETION CERTIFICATE

The Internship Completion Certificate issued by GURUsys Learning, certifying successful completion of the internship as a Content Editor from 15/05/2026 to 30/06/2026, is presented below.

*Figure 3.1: Internship Completion Certificate issued by GURUsys Learning*

## **4. PROJECT DESCRIPTION**

### **4.1 Introduction**

As part of the B.Tech CSE curriculum at IILM University, students are required to undergo an industry internship to gain practical exposure and bridge the gap between academic learning and real-world professional practice. In fulfilment of this requirement, I undertook an internship as a Content Editor at GURUsys Learning, an ed-tech organization operating under the philosophy “Read to Lead”. The internship was carried out from 15th May 2026 to 30th June 2026. A copy of the Internship Completion Certificate is presented in Chapter 3 (Figure 3.1).

This report presents an overview of the organization, the nature of the work undertaken, the tools and methodology used, and the outcomes and learnings derived from the internship experience.

### **4.2 Organization Profile**

GURUsys Learning is an education-focused organization dedicated to creating high-quality learning content and resources for students and professionals. Guided by its motto “Read to Lead”, the organization works towards making learning material accurate, accessible, and engaging. GURUsys Learning offers structured internship programs that allow students to gain hands-on experience in content development, editing, and quality assurance under professional guidance.

### **4.3 Problem Statement**

Educational and informational content, when produced at scale, is prone to inconsistencies in grammar, tone, structure, and factual accuracy. Unedited or poorly reviewed content can reduce readability, mislead learners, and diminish the credibility of an organization. There was a need to review, refine, and standardize written content produced by the team so that it meets professional editorial standards before being published or shared with the intended audience.

### **4.4 Project Objectives**

- To review and edit content for grammatical accuracy, clarity, and consistency.
- To ensure that content adheres to the organization's tone, style, and formatting guidelines.

- To proofread and eliminate factual, typographical, and structural errors.
- To improve the overall readability and engagement value of the content.
- To collaborate with writers and the content team to streamline the editing workflow.

#### 4.5 Scope of the Project

- Editing of articles, blogs, and learning material created by the content team.
- Proofreading for grammar, punctuation, spelling, and sentence structure.
- Fact-checking and verification of information before publication.
- Formatting content in line with the organization's editorial guidelines.
- Providing constructive feedback to writers to improve future submissions.
- Basic optimization of content for readability and search visibility.

#### 4.6 Technologies and Tools Used

- Google Docs and Microsoft Word – for drafting, editing, and reviewing content.
- Grammarly – for grammar, spelling, and style checks.
- Plagiarism-detection tools – to verify content originality.
- Google Sheets – for tracking content status and editorial workflow.
- Canva – for reviewing and suggesting basic visual/formatting elements.
- Content Management System (CMS) – for uploading and formatting finalized content.

#### 4.7 System Architecture

Although this internship was editorial rather than technical in nature, the content production process followed a defined workflow, which can be represented as follows:

Content Ideation → Writing by Content Team → First-Level Editing (Grammar & Clarity) → Fact-Checking & Plagiarism Check → Formatting as per Style Guide →  
Final Review & Approval → Publishing on CMS.

This workflow ensured that every piece of content passed through multiple quality checkpoints before being approved for publication, maintaining consistency and accuracy across all material.

#### 4.8 Methodology

- Received draft content from writers along with the assigned topic and target audience.
- Performed a first read-through to understand the intent and flow of the content.
- Edited the content for grammar, punctuation, sentence structure, and tone.
- Verified facts, figures, and references used in the content.
- Ran the content through plagiarism-detection and grammar-checking tools.
- Reformatted the content as per the organization's style and publishing guidelines.
- Shared feedback with writers and coordinated revisions where necessary.
- Submitted the final, polished version for approval and publishing.

#### 4.9 Expected Outcomes

Through this internship, the following outcomes were achieved:

- Improved practical skills in professional content editing and proofreading.
- A stronger understanding of editorial standards, tone, and style consistency.
- Hands-on experience with industry-standard editing and collaboration tools.
- Enhanced attention to detail, time management, and ability to work under deadlines.
- Exposure to real-world content workflows within an ed-tech organization.

As noted in the Internship Completion Certificate issued by GURUsys Learning (Figure 3.1), I demonstrated excellent editing skills, creativity, attention to detail, and a strong willingness to learn throughout the course of the internship.

#### 4.10 Certificate of Completion

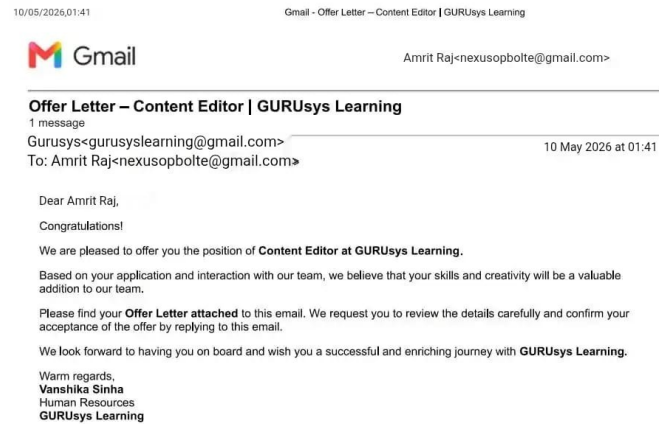

The Internship Completion Certificate issued by GURUsys Learning is presented again below for ready reference.

***Figure 3.1: Internship Completion Certificate issued by GURUsys Learning***

#### 4.11 Offer Letter / Email Communication Proof

The offer letter communication received from GURUsys Learning via email, confirming the offer of the position of Content Editor, is presented below as proof of communication.
